1989 - 1994 (XJ) Cherokee/Wagoneer
1989 - 1994 (YJ) Wrangler
1993 - 1994 (ZJ) Grand Cherokee/Grand Wagoneer

DISCUSSION:

Some technicians have used Mopar Brake Parts Cleaner for cleaning electrical connectors. This was alright when only one brake parts cleaner was available from Mopar. Currently Mopar offers two different types of brake parts cleaners. **DO NOT USE P/N 4549623 ON ELECTRICAL CONNECTORS.** It is petroleum based and will dissolve the plastic connector material. When cleaning electrical connectors, only use P/N 4318037 or an equivalent that is 1,1,1 Triclor based as they will not harm the plastic.

Any and all petroleum based chemicals should be prevented from coming in contact with plastic electrical connectors.
